

## **AMENDMENTS TO THE SPECIFICATION**

**Please cancel the heading “Disclosure of the Invention” in line 18 on page 2 of the specification.**

**Please cancel the heading “Problem that Invention is to solve” in line 19 on page 2 of the specification.**

**Please replace the heading “Means to Solve the Problem” with -- Summary of the Invention-- in line 7 on page 3 of the specification.**

**Please amend the paragraph beginning on page 3, line 8 and ending at line 32, as follows:**

[0008] In order to achieve the aforementioned objective, the secure system in the present invention is a secure system having a secure device holding confidential data and a terminal apparatus to which ~~said~~the secure device is connected, ~~said~~the secure system including: a first storage unit included in one of ~~said~~the secure device and ~~said~~the terminal apparatus, and which stores domain information defining a domain of ~~said~~the secure device and ~~said~~the terminal apparatus; a second storage unit included in one of ~~said~~the secure device and ~~said~~the terminal apparatus, and which stores an extra-domain usage rule which is a rule for use of ~~said~~the secure device outside the domain; a first judgment unit included in one of ~~said~~the secure device and ~~said~~the terminal apparatus, and which judges, according to the domain information, whether one of ~~said~~the secure device and ~~said~~the terminal apparatus is currently inside the domain or outside the domain; a second judgment unit included in one of ~~said~~the secure device and ~~said~~the terminal apparatus, and which judges, according to the extra-domain usage rule, whether or not use of ~~said~~the secure device is permitted, in the case where it is judged by ~~said~~the first judgment unit to be outside the domain; and a control unit included in one of ~~said~~the secure device and ~~said~~the terminal apparatus, and which enables the use of ~~said~~the secure device in ~~said~~the terminal apparatus in any of: the case where it is

judged by ~~said~~the first judgment unit to be inside the domain; and the case where it is judged by the second judgment unit that use is permitted.

**Please amend the paragraph beginning on page 4, line 14 and ending at line 21, as follows:**

[0011] Here, ~~said~~the terminal apparatus may be a content use apparatus reproducing an encrypted content, the confidential data may be an encryption key for decrypting the content, and ~~said~~the control unit may supply the confidential data from ~~said~~the secure device to ~~said~~the terminal apparatus, in any of: the case where it is judged by ~~said~~the first judgment unit to be inside the domain; and the case where it is judged by ~~said~~the second judgment unit that use is permitted.

**Please amend the paragraph beginning on page 5, line 8 and ending at line 14, as follows:**

[0014] Here, the secure system may include a history recording unit which records an extra-domain use history indicating a history of use of the content in a content use apparatus outside of the domain, the use being based on the extra-domain usage rule, wherein ~~said~~the second judgment unit may judge whether or not the extra-domain use history exceeds a limit of permitted use indicated in the extra-domain usage rule.

**Please amend the paragraph beginning on page 5, line 19 and ending at line 20, as follows:**

[0016] Here, ~~said~~the second storage unit and ~~said~~the second judgment unit may be included in ~~said~~the secure device.

**Please amend the paragraph beginning on page 5, line 30 and ending at line 31, as follows:**

[0018] Here, ~~said~~the second storage unit and ~~said~~the second judgment unit may be included in ~~said~~the content use apparatus.

**Please amend the paragraph beginning on page 6, line 32 and ending on page 7 at line 3, as follows:**

[0028] Here, ~~said~~the content use apparatus may include a reception unit which receives a new extra-domain usage rule from an outside source, and ~~said~~the second storage unit may update the extra-domain usage rule with the new extra-domain usage rule.

**Please amend the paragraph beginning on page 7, line 8 and ending at line 10, as follows:**

[0030] Here, ~~said~~the reception unit may receive an extra-domain usage rule added to a license transmitted by a content distribution server.

**Please amend the paragraph beginning on page 7, line 20 and ending at line 26, as follows:**

[0034] Here, ~~said~~the content use apparatus may further include: an obtainment unit which obtains the extra-domain usage rule and an extra-domain use history from a secure device inserted into a secure device slot; and a display unit which displays a guidance regarding a use status for a content use apparatus outside of the domain, based on the obtained extra-domain usage rule and the extra-domain use history.

**Please cancel the heading “Effects of the Invention” in line 31 on page 8 of the specification.**

**Please replace the heading “Best Mode for Carrying Out the Invention” with --Detailed Description of the Invention-- in line 19 on page 11 of the specification.**

**Please cancel the heading “Industrial Applicability” in line 16 on page 40 of the specification.**
